

## Prehm-Miniaturen – New Items 2018

### Ostalgia and nostalgia

Many major railway fans in the new federal states wanted GDR police officers. So the model of a policeman on the motorcycle and a policewoman on foot. A little nostalgia on the plant is hereby allowed, as these figures were the most wanted in a survey.

### GDR Policeman on motorcycle Art.No. 500125

The VEB Motorcycle in Zschopau became this machine MZ ETZ 250 F used for traffic monitoring and regulation as well as in normal patrol service from about 1981. After the turn were sporadically still vehicles 3-4 years in use.

In the box behind the single seat, the radio was installed. Also the sign "PLEASE FOLLOW" was attached here In the side cases at the rear, more equipment could be carried.

The police motorcycle is delivered with the people policeman in the typical uniform and the protective helmet. Fits well with epoch IV and beginning of epoch V.

Hand Pattern - Color, shape and facial expression may differ from the original.

**RRP: per metal figure (policeman included motorcycle) 59,00 €**

### GDR policewoman – Art.No. 500126

In the German Democratic Republic (GDR - from 1949-1990) was the Police tight military organized. The People's Police were subordinatethe Ministry of the Interior of the GDR. The sovereign power was only available inInterior of the GDR. From the border to the border area were the border troops responsible. Again, the use in epoch IV is exemplary. Single figure with UV resistant colors, handpainted. Plastic figures are finely modeled in detail and very realistic.

Hand Pattern - Color, shape and facial expression may differ from the original.

**RRP: per metal figure 19,95 €**

## Coal Store – Relief house – Art.No. 560000 – finished model

For the steam locomotives and the already existing conveyor belt - Art. No. 500220 - we chose the theme "Coal" in 2018.

Another building in the program of relief houses is a coal shop with gate and ramp. The plastic building is a finished model, hand painted with UV resistant inks and therefore completely weatherproof.

Hand Pattern - Color and shape may differ from the original. The figures shown in the picture, the coal bag and the gas bottles and the wooden shelter are not included.

per coal trade store – Art.No. 560000 RRP: 138,00 €

## Coal storage - Art.No. 560001 – finished model

An extension of the coal trade is the coal storage. Here is stored in several bansen, wood, briquettes, peat and of course coal.

Hand Pattern - Color and shape may differ from the original. The figures shown in the picture, the coal bag and the gas bottles and the wooden shelter are not included.

each coal storage – Art. No. 560001  
RRP: 119,00 €

## coal libra Art.No. 500400

By popular demand, the model of a coal libra was born with which bags were filled. A filigree model fair Model is now available, suitable for coal storage.

Each coal scale Art.No. 500400 RRP: 24,95 €

Hand Pattern - Color and shape may differ from the original. The figures shown in the picture, the coal bag, the coal scale and the gas bottles are not included

Three metal figures farming the coal trade. Until the 1960s coal traders in town an village were indispensable. If you did not want to freeze in winter, you had to buy wood an coal in a coal trading company.

## **Train driver with remote control** **Art.No. 500072 - metalfigure**

For a long time, the resin camel and the Köf, in the resin, driven by the locomotive driver by radio remote control. With the prototypical model of a Rangierer the HSB, now these scenes can be adjusted. This metal model is also painted with UV resistant paints. A, so far missing, important detail for the trains of the HSB – Harzer Schmalspur Bahn.

**RRP per Train driver: 19,95 €**

## **Saleswomen in bakery** **Art.No. 500073 - metalfigure**

To get a busy life on the model railway system, craftsmen and sellers of all kinds are needed. We started with the electrician on the mast. Now follows the bakery saleswoman who can also be used in drinking halls, restaurants, bar cars and souvenir shops. Also this figure is, like all figures of Prehm miniatures, made of a zinc-magnesium alloy (without the use of lead), hand painted with UV resistant inks.

**RRP per bakery saleswomen: 18,95 €**

## **Electrician on mast - Set** **Art.No. 500127- metalfigure**

Who does not know them, the "mast climber" from the time when electricity and telegraph poles were everywhere. With a little skill the wooden poles were climbed with crampons. The set includes the electrician with crampons and the mast with insulators, both made of metal and painted with UV resistant paints. This set is an eye-catcher on every layout.

**RRP per Set: Electrician on mast: 32,95 €**

All figures and models are absolutely weatherproof.

teddy bear still gives comfort.

## Three children with a slide Art.No. 550206 – plastic

A great fun for all children is the slide. Now you can get the fun on the model railway layout. On the right scale is now a set with slide and three children deliverable. While two children have their fun, the third child fell off the slide and injured his head. Only the

**RRP per Set, 3 children with slide: 34,95 €**

Note: hand pattern - color, shape and facial expression may differ from the original.

All figures and models are absolutely weatherproof.

## Firefighters with black deployment clothing

In some regions of Germany and for some time now, the black fire fighter gear has replaced the bright red clothing. The trousers have been in black for a while, now also the combat coats. In order to bring a realistic fire brigade on the model railway system, now firefighters are available in these current clothing. All firefighters are painted from a zinc-magnesium alloy and with UV-resistant paints.

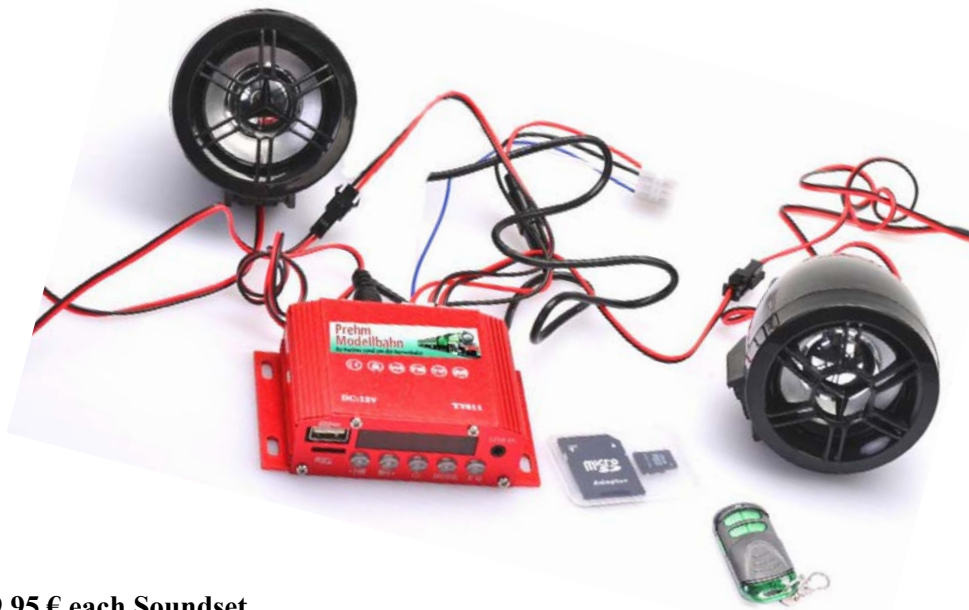

## **Soundmodul – Art.No. 530000 – with MSD card und church sounds**

We have revised and improved our well-known sound module without increasing the price. The electronics are protected against dust and splash water in a sturdy and lacquered aluminum housing. The remote control now works with radio (433 Mhz.), Which allows installation in buildings and wagons. The range is about 100 meters. Every sound is playable, either via MSD card or from the stick on the integrated socket.

The connected antenna allows the reception of radio stations. All sounds, music and sounds can also be heard via headphones (not included). On the MSD card, Art. No. 530002, various church sounds (bells ringing, Our Father, wedding march, etc.) are played.

Also new is that two sound-stable speakers are included. These can be connected to the two 10 Watt outputs.

**RRP: 59,95 € each Soundset**

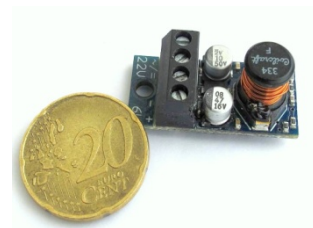

## **Sound module – Art.No. 530001 – without MSD card and church sound**

Sound module as described under item no. 530000 only without the MSD card - Art.No. 530002 - with the different church sounds. (This can be ordered separately, however, RRP: 25,95 EUR)

**RRP: 48,95 € each Soundset without MSD card and church sound**

## **Voltage limiter – Art.No. 520302**

For our sound module, as described under Art. No. 530000/530001, there are the voltage limiter - Art. No. 520302 -. Here you can download the sound module directly to the digital power or to the digital track power.

**RRP: 16,95 € each voltage limiter**
